PESTILENCE PLAYS:

NON PHYSICAL EXISTENT

When one cannot see it
It doesn't mean it is not there
Of this cold and morbid truth
Only just then one can see
What you have been scared of since youth

Because there is no heaven and
And that there is no hell
Only the blackest void,
in which the human soul shall dwell

Non Physical Existent

Forever and ever is only a matter of time
Where the human mind and soul
Has to deal with the laws of nature
Trapped in this eternal wormhole
There are many sub frequencies
That want to get inside your mind
The only goal is to absorb you
Put you into their emotional grind

Because there is no heaven and
And that there is no hell
Only the blackest void,
in which the human soul shall dwell

Their only goal is to distract you
from getting the eternal peace
To take all your energy
Like a cancerous disease

Solo: Mameli

Beware of the non physical existent
Because they will eat your light
They exist in the unholy
Where the all black rule this fight
When one cannot see it
It doesn't mean it is not there
The physical realm is a perceptions
The one reality of which you are aware

Because there is no heaven and
And that there is no hell
Only the blackest void,
in which the human soul shall dwell

Solo: Dables

Existent!

MULTI DIMENSIONAL

Different planes of existence
The frequency of that dimension
Wormholes, unlimited distance
The All and it's constant expansion
The consciousness that resonates
With unlimited power to be
Genetic code can re-create
A reality within a reality

I am the gateway
Between the macrocosm
I am the gateway
Between the microcosm

Multi dimensional

The astral body now can't withstand
The psychic turbulence
Using the whole broadband
Infected with the Pestilence
True-SELF can becomes lost
In our unconscious mind
When the ultra demons exhaust
The ability to make one blind

Fear and negative emotions
Are caused by malicious entities
Mentally disrupting trojans
Will do anything to make you not see
For consciousness that resonates
With unlimited power to be
Genetic code that re-create
A reality within a reality

I am the gateway
Between the macrocosm
I am the gateway
Between the microcosm

Solo: Dables
Solo: Mameli

Multi dimensional

OVERSOUL

Holographic self image of reality
The existence and nature of the human soul
One indivisible totality
It is for you to control

Course of evolution
And full reincarnation
Tendency of identification
Given to you by creation

We live in division, in parts, in particles
Equally related to the eternal ONE
To overcome distracting obstacles
To become bright like the sun

Course of evolution
And full reincarnation
Tendency of identification
Given to you

Oversoul

Solo: Dables
Solo: Mameli

The subject and the object, are one
This deep power in which we exist
What one cannot see doesn't mean it's gone
Within ourself we cannot desist

Course of evolution
And reincarnation
Tendency of identification
Given to you by creation

MATERIALIZATION

Once they can find a way to get inside your mind
This external terror can take it's form
If you will give in to a sickness of this kind
It only takes full exposure to set the norm

Within the realms
Of the neurons they can infest
These parasites will consume
Leaving your body fully stressed

Materialized

Solo: Dables

Only the feeble and weakest of soul
That depends on a set structure of belief
Victimised by the negative that want control
You wil never again feel peace and relief

Within the realms
of the neurons they can infest
These parasites will consume
Leaving your body fully stressed

Materialized

Solo: Mameli

ASTRAL PROJECTION

Astral flight - through space and time
Faster than light - imaginary might
You will soon realise - that life just a lie
That we really cannot die - and there are no goodbye's

Mental spaceships faster than the speed of light
Takes you to either heaven or an evil twilight
Using the almighty wormholes of the All
Nothing but thoughts to direct this freefall

The energy that is our souls transcends body and flesh
Use these power wisely or your mind will certainly crash
Don't get distracted or this phenomenon will claim
The eternal soul cannot die but shurely can be maimed

Particles of the whole you will selfconstruct
Stability comes from positive energy if well instruct
Denser than a black hole you will be able to pass
Since the astral body has no more mass, no mass

Passing through eons of time all at once
If we would understand this we could flourish in abundance
Since there is no such thing as time future and the past
All is happening simultaneously, so accept...

Astral flight - through space and time
Faster than light - imaginary might
You will soon realise - that life just a lie
That we really cannot die - and there are no goodbye's

DISCARNATE ENTITY

Solo: Dables

Discarnate entity

Contaminated with a depression
Entities have affected you adversely
Feeding of your weakness is their obsession
Lusting for suffering perversely

The aura now is fully filled with darkness
Leaving you a psychic victim and drained
Taking advantage of your now starkness
Discarnate entity now has you contained

Discarnate entity

Individuals create a climate that attracts
Ultrademons into their aura by their attitudes
Disembodied beings ascended to the all blacks
Forcing negative energy to soul obtrude

Discarnate entity

Solo: Mameli

SUBVISIONS

*Inside the body it travels, the mind... enclosed within the
cranium yet boundless, omnipresent; a universal passenger
on an infinite cosmic journey through the spheres...*

MANIFESTATIONS

Manifestations

Appearances of the Divinity as clear as can be
Reaching out to the All that is, spans into infinity
Using the negative frequencies to transmit
To hypnotize, mesmerize through the unholy transcript

Manifestations

Once inside they anker themself on all sublevels
Soulless beings rendered as powerless vessels
Mimicking realities to where you cannot see
Manifestations of the maladies roaming now free

Manifestations

Galactic domination
Of the immense All
Structured calibration
The subconscious thrall

Solo: Dables
Solo: Mameli

Manifestations

TIMELESS

In a time when there was no time
Reality was made of thoughts
Where time and space was defined
By aligning stars as dots
When the ancient ones ruled the astral planes
Planting the seeds of doubt
The earliest thoughts as little as grains
For weak receptors to be cast out

We are the timeless
We exist in brightness
We are the bodyless
We are ageless

For it has been and will always be
The rules of physical and non physical
Even with eyes shut you will see
But for some these rules are too cryptical
These thoughts are older than time
They make up space and reality
There is no beginning or end to this grime
The positive and the negative ruled by the lordly

We are the timeless
We exist in brightness
We are the bodyless
We are ageless

Solo: Dables

Makers - Of Reality
Creators - Of the Void
Dictators - Of the Astral Sea
Taker - Of the endless Spheroid

Solo: Mameli

We are the timeless
We exist in brightness
We are the bodyless
We are ageless

ULTRA DEMONS

Inside your weakness lies their strenght
Any doubts is felt as an entrance to your soul
A gateways through the human wavelength
Thus enters inside the ultra demons to control

No longer able to resist what's already deep inside
The absolute truth about the human essence
Egoisme, the imbalance you can no longer hide
Slowly infesting the mind

Total chaos in my head
Existing at 1 KHZ
Extraction of the human soul
Leaving you blackened like coal

Once inside they anker themself on all sublevels
Mimicking reality to where you cannot see
Soulless beings rendered as powerless vessels
Manifestations of the maladies roaming now free

Questional behaviour analyzed by the external
Timeless beings now manipulating the eternal

Solo: Dables

LAYERS OF REALITY

What you can see you take as reality
That's how weak and feeble you are
The truth does not lie within your memory
It misses the target by a far
There is no way of finding it in just one place
Multiple layer of consciousness
Multiple truths in this maze
The mind builds self confidence

Windows full of deceit
Tell you what you need
Whatever your looking for
Feeding the ego to explore

Layers

Solo: Dables

What the primitive mind just cannot understand
Is that all there is exists in the now
Layers are masked with the implant
To cloth and to disavow

Windows full of deceit
Tell you what you need
Whatever your looking for
Feeding the ego to explore

Layers of reality

Solo: Mameli

The universal laws of good and evil stays intact
For deep inside the core you just know
That negativity feeds the parasites that are also trapped
Feeding on ego weakness, wanting your prescious soul
Seduced by lies and the absolute deception
Where you lost all direction in finding your path
Using all means for the deflection
Consumed by psycho vampires through their wrath

Layers of reality

ELECTRO MAGNETIC

Intermolacular - forces between individual atoms
Is where the all black roams as the negative phantoms
Interactions - between these electrons with no remorse
Manifestation - of the dark electromagnetic force

Within all Realms, of human nature
The psychic vampire dwells, without a trace
No seen evidence for this is set to failure
To wipe out all genetics of the human race

Manipulating - forces on a sub molecuair level
Transforming you to become the next cloned [d]evil
Floureshing now as they cherish the electric

Within all realms, of human nature
The psychic vampire dwells, without a trace
No seen evidence for this is set to failure
To wipe out all genetics of the human race

Regenerate into impure
Now conjugate, this is obscure

The HADEON using one of the four fundamental forces
They are hypothetical life forms unproven to mankind
Exobiology effects of extraterrestrial environments
But they are hear, they exist and you are all blind

Within all realms, of human nature
The psychic vampire dwells, without a trace
No seen evidence for this is set to failure
To wipe out all genetics of the human race

Regenerate into impure
Now conjugate, this is obscure
